

EARTH DAY

Sorting Activity

One way to help protect Earth is to recycle. Look at the items below. Which objects are trash, and which ones can be recycled? Draw a line connecting the object to its correct bin!

The diagram shows various items and two bins. A line connects the cardboard box to the recycling bin, and another line connects the fish bones to the trash bin.

- Items:** cardboard box, paper, plastic bottle, candy, aluminum can, plastic wrap, fish bones, egg shells, trash can, glass bottle, recycling bin.
- Bins:** RECYCLING, TRASH.
