

BLIZZARDS

Art Project

Learn how to make marbled paper that looks like snow in the sky!

MATERIALS:

baking pan
shaving cream
blue acrylic or tempera
paint

stick (like a wooden dowel
or chopstick)
white cardstock
scraper

- 1** Take your shaving cream and cover the bottom of your baking pan.
- 2** Add some blue paint to your baking pan. Carefully swirl it around using your stick.
- 3** Once you have the swirls you want, take a piece of white cardstock and press it down into the pan. Make sure all of your paper is touching your paint and shaving cream mixture!
- 4** Carefully peel off the paper and use a scraper to remove all of the mixture. You now have marbled paper!
- 5** To make your new paper look even more like snow, you can make small snowflakes and attach them to your sky. You can also attach a piece of white paper to the bottom to make snowy ground!
