

# MAGNETS

Make a painting using magnets!

## MATERIALS:

Paper  
Shoe Box  
Magnet

Metal Objects  
(Such as Paper Clips,  
Washers, or Springs)  
Paint

- 1** Put a piece of paper in the bottom of your shoe box.
- 2** Place several drops of paint on the paper. Set some of the metal objects on the paper too.
- 3** Hold a magnet underneath the shoe box. Move the magnet around. This will make the metal objects move and spread your paint around on the paper.
- 4** Add drops of a second color of paint. Use the magnet to move the metal objects and blend the colors together. Add as many colors as you want. You can also try using other metal objects. Each object will spread the paint differently.
