

SHARKS

..... **Spot the Difference**

Great white sharks and mako sharks look alike. There are small differences between the two. Can you tell which pictures below are of a great white shark and which are of a mako shark?

DIFFERENCES:

Great White Sharks

- Black on the edge under the fins
- Shorter nose
- Straighter and wider triangle teeth

Mako Sharks

- Bottom of fins are all white
- Longer nose
- Thinner teeth that go in all directions
