MEASURING TEMPERATURE

Thermometer Reading

Most thermometers give readings in both Celsius and Fahrenheit. Each thermometer below needs to show a different temperature in Fahrenheit. Each line on the thermometer stands for 2 degrees. Color in the temperature below. What is the temperature in Celsius? Write the answer in the blank!

°C °F 50 = 120 40 = 100 30 = 160 10 = 160	°C °F 120 100 30	°C °F 111111 50 = 120 100 30 = 180 20 = 160 10 = 140 0 = 140 0 = 140 10 = 140	°C °F 120 120 100 300 100 100 100 100
80°F	10°F	50°F	32°F
°C	°C	°C	°C
