SOIL

Fill in the Blank

Erosion can be when soil is removed by wind or water. The statements below are ways to protect soil. Use the word bank below to fill in the blank with the kind of erosion the statements help with.

water erosion    wind erosion

1. Plant trees along rivers and streams to keep soil in place.

\_\_\_\_\_

2. Plant crops in terraces.

\_\_\_\_\_

3. Plant lines of trees around a field.

\_\_\_\_\_

4. Plant grass to create a wall of roots.

\_\_\_\_\_

5. Build a fence around a garden.
